TESTIMONIALS

Original copies of all Testimonials are held for inspection at the Head Office of
100% Collagen Ltd.

The PURECOL 100% Pure Collagen Capsules are both FDA and EU Regulations compliant and meet the specifications of the 1990 Food Safety Act.

“I have had the good fortune of monitoring over 300 patients over a one-year period of time on the use of the product.

I monitored people that ranged in age from 17 years of age up to 77 years of age with a variety of backgrounds and health histories. They included people with high blood pressure, arthritis and many more conditions. Over that one-year period of time my patients averaged a % of 85% of positive results. I want to stress that we did a lot of testing. We wanted to know exactly how much of the reduction of pain that was happening and how much was actually converted of lean muscle mass. Our results were extraordinary. I want to point out that our people were not placed on a caloric restrictive diet. They were recommended to maintain a good balance between fats, carbohydrates and proteins, to be sensible with their diets and reduce sugars. We had 36% of the group that actually gained lean muscle mass during that time.

Pure Collagen is very reliable and very safe. The only side effects from the product that we ever found were positive side effects. Every user experiences a much greater sense of wellbeing which occurred within the first couple of weeks. That's a marvelous health point for everyone because if you feel better you are inclined to perform better in your life.

In the original study we saw a number of people begin to exercise, not because they were required to but because they felt better. I don't know what the magic is in the chemistry.”

Ron Darling, Health Practitioner

Pure-Cd

Testimonial

"I have been in the field of preventative health-care for over 20 years. I am dedicated to exposing people to the best options available to protect their health and prevent disease. because this is the main focus of my practice, I spend a lot of time swimming upstream.

I am constantly trying to talk my patients into doing things that will improve their health (i.e.: nutrition, exercise, lifestyle changes). I am thrilled to be able to make Pure Collagen available to my patients! It is wonderful to recommend a product that is so healthy and have all of my patients respond so excitedly!

For the first time, I don't feel like I'm swimming up-stream. Everyone seems to want the benefits of lean muscle, and tissue regeneration and of course, many people would like to take off a few pounds in their sleep! This product is fantastic!!!"

Dr. Carlos Denigio D.C.

There is nothing on the market like collagen. I have been looking for a collagen-based product for over 20 years. I have repeatedly asked manufacturers to formulate a product like pure collagen to no avail. I love collagen's delivery system-it is simple and elegant. Without changing any major behaviors, my patients are seeing positive results and feeling great! This is the one fundamental nutrient I recommend to each and every patient."

Dr. Edward Lafontaine

Collagen and You

The formula for the **PURE-COL** capsules is quite unique and is the result of a hydrolisation process that takes 2-3 months to complete and is conducted under clean room conditions governed by international pharmaceutical regulations with regular quality control checks. During this period the collagen is enhanced by specific amino acids to create a formula which is 100% pure collagen and which is free of preservatives. The **PURE-COL** collagen offers optimum absorption by the body and has been shown to be in the blood stream within 10 minutes of ingestion.

As collagen makes up 75% of the dermis layer of the skin and the skin is the body's largest organ, and as it has been shown that it diminishes at a rate of approximately 1.5% per annum from the age of 25-35 years onwards, ingested collagen in capsule form is going both to maintain the collagen levels in the skin and replenish the loss of collagen due to the passing of time and maturity. The effect of taking the capsules will be cumulative unlike injectates that need to be repeated at regular intervals.

The **PURE-COL** capsules can however be used both to support and enhance Botox, Restylane, Newfill and other injected protocols or as a non-invasive alternative for those not wishing to undergo invasive procedures.

The **PURE-COL** capsules can also help to bring optimum benefits to those undergoing all kinds of face-lift treatments as they work on the inside and boost the collagen content of the dermis all over the body.

In addition **PURE-COL** capsules preserve and replenish lean muscle mass and improve the management of the body's fat. They therefore have a positive role to play in the reduction and elimination of cellulite and in weight management.

The **PURE-COL** capsules are therefore for healthy skin, hair, nails, teeth, bones and also connective tissue.

Dear Katherine,

re: Pure-Col

Thank you for introducing me to the availability of Pure-Col, I have to say I have been pleased with the results I have seen within my clients.

I have been in practise as a Clinical Nutritionist since 1985 and have tested a number of such products that supposedly remove toxins from the body.

Modern living subjects us to many more pollutants than our parents and grand parents and I believe that the level of stored toxins in our bodies are in no small way responsible for most of the degenerative diseases that affect us nowadays.

Breakdown of collagen with age, in the connective tissue slows down the movement of pollutants in the body. Topping up the body's natural collagen can help to repair the connective tissue. This has visible benefits such as the reduction of cellulite in women and the reduction of lines and wrinkles. However the main benefit from a nutritional point of view is the more general removal of toxins within the body and so helping to promote health.

The reason I believe Pure-Col is so effective is because it is refined into a simple protein that is almost totally bio-available and because our body can recognise this form of collagen it is unlikely for anyone to react to this natural product.

I can recommend that anyone interested in their personal well being should take Pure-Col, not only to look better, but to make sure at the cellular level they have done as much as possible to remove poisons from their cells

Yours truly,

Brian Hampton Dip. I.O.N.

"My Ph.D. is in clinical nutrition and I've been working in the nutritional field for 16 years. One of my focus areas is tracking people's health problems to their root as nutritional deficiencies.

From my broad experience researching health in relation to nutrition, I recognize Pure Collagen as a product that is positively needed by everyone, whether they have a weight problem or Arthritis. My experience with this product has been astounding. My patients, under less than ideal stress conditions, are experiencing great results.

Pure Collagen stimulates a source of natural energy in the body and those who are taking it are becoming self-evident testimonies to the power of this incredible wellness resource. There is no need to "try out" this product. It is an important source of nutrition for all bodies alike and it works."

Dr. Frank Woodbine, Ph.D.

"I've been a chiropractor for the past 28 years and currently run a clinic that sees 200 people a day. Pure Collagen came into my possession a little over a month ago and changed my outlook on life completely.

At the time I started I was suffering from pneumonia and was 20 lbs. overweight. In the first few days the pneumonia completely disappeared and my energy was back in tact. In the last four weeks I've taken off 18 lbs. and have witnessed truly amazing results with my patients as per regeneration of muscle mass.

I'm so thrilled to be able to expand my wellness practice with a product that safely and naturally helps people I know I can recommend Pure Collagen and expect tremendous health results for my patients."

Dr. Bill Trusak, D.C.

20th June 2002

Dear Jeremy

I have now been taking collagen tablets, both internally and in diluted powder form on the face, for about two months. The amazing results are far better than all my hopes and expectations. My facial lines, (or should I say wrinkles!) are rapidly disappearing and only yesterday some people thought I was in my early forties – in fact I am nearly 55 years old.

The collagen is also having a beneficial effect on my shoulder pains. My shoulder has been giving me constant severe pain after an accident four years ago and three subsequent major shoulder operations. In the past ten days I have had no pain in my shoulder. I must put this relief of pain due to the collagen.

Thank you again for a truly brilliant product that does work miracles.

Yours very sincerely,

Pure-Cd *Testimonial*

"I have been taking collagen tablets now for 3 months with some very remarkable results. The first improvement was my bust—definitely firmer. I have also lost that tired, haggard look on my face, making it fresh and radiant."

R.Phillipson

"My sister started the 100% collagen capsules and I was so amazed with the results that I began myself. Within 9 days I was stunned at the results, as was my sister. My skin had totally changed for the better. Lines had disappeared and I looked and felt younger and my confidence was at an all time high. I am so excited by this dramatic change that I cannot stop talking to everyone about it."

Linda Ince

"I am a very sceptical person and therefore when I tried this product I decided to give it 3 months just to prove to a friend that it would not work. Well the truth is that after only 2 months I have noticed a difference—my skin feels a lot smoother and it has become easier to wet shave.

The most remarkable change however is a scar on my face which I have had for over 10 years. It has faded away to a very feint line. All I can say is try it for yourself and see."

M.Keir

Pure-Cd *Testimonial*

"Thank you for my face wash and collagen. It seems to be working quite well. My skin is a lot smoother and a couple of people have passed comment—so we will see."

Yvonne

"I have been taking the Pure-Col capsules for over 6 months. I am very impressed with the results. My body has toned up so much. The elasticity on my bottom and breasts has definitely improved."

Kimberley Mack

"I am a man that really cares about the quality of his skin. I have been taking Pure-Col capsules for over 4 months and many friends have commented how good I am looking. The deep lines round my eyes seem to have become a lot less noticeable. I had a number of small scars that seem to have faded away. I am totally satisfied with the results and I am confident that my skin quality will continue to improve."

“I have sent you the photos of Sue’s stretch marks—notice the date is on them—2 lots 3 weeks apart. I will take some more when see more improvement. Sue is definitely impressed with the overall results so far. Firming of skin—breasts, buttocks, stretch marks have started to be less visible and muscle tone improved.”

M.Cockburn

“I have been taking the collagen tablets for 3 months now. I would just like to say that the number of compliments I have been getting lately is amazing. I the last 2 weeks I have been told I look fantastic, exuberant, younger (which I liked). These remarks are coming from people I haven’t seen for a while and also ones I see regularly.

So I will continue taking collagen and hope for more miracles.”

Margery B

Pure-Cd

Testimonial

“I am coming to the end of my 3 months of collagen. Send me another 3 as soon as possible. I think it is great. I thought I looked pretty good for 40 with a small problem area round my eyes. I can’t believe the difference and my skin has a healthy look. You are right—it does tighten your behind area !. Looking forward to the next 3 months. Send me some extra information for some friends.”

Gary Clarke

“ I am 2 weeks into using Pure-Col and am absolutely delighted with the results. My lines are fading and my skin looks much fresher and younger. Already I can see the results of detoxification and the dreaded cellulite is beginning to go. Friends are commenting on how well I am looking”

K.Danzy

I have been the owner of the Cutting Crew Hair Salon for over 15 years. I am truly delighted with the results of Pure-Col. I have taken the product myself for just over 2 months and cannot believe the difference it has made to my appearance. >It has also become one of my fastest moving products. With every facial treatment we recommend this product and have been very excited by the number of customer referrals we are now getting. I would recommend this new and exciting product not only to take but to retail as well.

Jenny

Pure-Cd ***Testimonial***

“One of my very good friends began to take the Pure-Col. I did not see her for approximately 3 weeks and I was stunned at the difference in her facial appearance. Her skin absolutely radiated and lines had virtually disappeared..

So I began the course of collagen and within 2 weeks my laughter lines were noticeably finer and I was feeling more energetic and the pains I was experiencing in my left hip prior were not bothering me any more. I am a person who has never subscribed with tablets, capsules in any shape or form—but now I am determined to continue as I am amazed with the results.”

C.Badinge

I have been on Pure-Col for 1 month. I am delighted to say that I have noticed a change in the condition of my skin. It appears much healthier and fine lines have begun to disappear.

I am also suffering with Rheumatoid Arthritis. Since taking the collagen I have not needed to apply my cellulose eye drops, as my eyes have not felt dry or gritty. Definitely a big improvement.”

Mrs. D.Brooke

Pure-Cd ***Testimonial***

“Many thanks for introducing me to pure collagen. I am a 30-year old athlete competing for Great Britain in the Modern Pentathlon.

I have been on the national squad now for some 11 years and the wear and tear on my body is really starting to take its toll. For the past 3 to 4 months of the season I have been training on a very sore Achilles tendon, which, despite medical assistance, has not been improving. After your recommendation, I have combined the collagen with the Opti Msm I was already taking to great effect.

I was amazed to find that after only a week to 10 days the pain had gone and the soreness was considerably better. I am now back into training for next season and hope that I can Captain my squad to future triumphs. Many thanks again.”

James Greenwell

Captain- Great Britain Modern Pentathlon Team
